

EASY AS 1-2-3

REMOVABLE P.O.P.

SHORT TERM DECALS

PROMOTIONAL SIGNAGE

THICK & EASY TO APPLY!

No laminate needed for rigidity and perfect for a variety of applications

New **221** is a premium LOW-TACK 6.0 mil "Gloss White" semi-rigid vinyl that was designed for easy applications even without lamination. Applications include both interior and exterior flat, smooth surfaces. This film can be printed with solvent, eco-solvent, UV curable and latex inks. From decals to general signage, the new **221 Series** is a great print solution for any sign shop or graphics house.

Also try General Formulations **219 - 6 mil Gloss Clear Low-Tack** the next time you print and mount to windows. Saves time and helps eliminate stretching when applying.
